

## StyleTech has a Brand New Home

### A Whole New Client Experience!

StyleTech Solutions is pleased to announce the acquisition of its new office in the centre of Hull.

For many years StyleTech has enjoyed the vibrancy of its city centre position. Its new city centre location is no exception whilst affording over four times more floor space and some of the most desirable views in town.

"It's important that our working environment is welcoming and encourages innovation.

Client communication is core to the success of our business, throughout the course of a project, it's not unusual for a client to spend several days with the design and development team here on site.

It's a very exciting time at StyleTech as we know we have found a new location that fits the team infrastructure perfectly and one which will also accommodate our growth plans into the future."
